

Engaging Our Differences to Raise the Bar

How do you get started with speaking Color and why is this part of God's plan?

Can you use a fresh level of unity and collaboration in your leadership & congregation?

- Already work well together? – Then this workshop will have you gelling like you've never thought possible!
- Have some areas to address or improve upon – misunderstandings, unmet expectations, tensions? Even if they're subtle, left in the background, they could create roots – don't let that happen – the workshops are fun, and interactive, but the results are ground breaking.
- Help the Saints really know their purpose, breakdown walls and love in new ways!

We walk this road together.

What are you bringing to the body?

Reveal your gift in the church...

You were specially designed to be a particular part of the body for a special purpose – we hear this – but do we really understand our part? How that works? Or how to know my part?

We're all different and we just need to accept that and move on, right?

Think again! We've all been created with a finite design that God has revealed but we just didn't know how to read it...

We Speak Color gives you the code to decipher each other in ways that are truly amazing and foster appreciation and unity like nothing else - "there is a God in heaven who reveals mysteries" Daniel 2:28

Loving your neighbor through knowing your neighbor – it's more simple than you think.

Let the result speak for itself...

Go to WeSpeakColor.com to see what others are saying about their experience.

One vision, His vision.

It's time to build together.

We bear more fruit together.

Christ is coming back for a united church and God has given us the tools to get there. Loving your neighbor means knowing your neighbor – it's not as complicated as we think.
